### Strength

#### Double 2" x 4" Rafters

Our double rafters give your gazebo roof a heavy-duty load capacity and help prevent beam warping.

### Prevention

#### Milled 1" x 4" Ceiling Lath

Our milled 1x4 laths allow your cedar roof to breathe and offer a wonderful interior appearance as well.

### Rigidity

#### 2" x 8" Compression Ring

The compression ring ties the rafters and posts of your gazebo together for additional snow load capacity and wind stability.

### Endurance

#### Laminated Posts

Our laminated posts resist checking and add strength while giving your gazebo a custom look.

### Supportive

#### Heavy Duty Railings

The railings on your gazebo are built to last! We utilize heavy-duty lumber to resist wear and vandalism.

### Quality

#### #1 Premium Grade Lumber

We use only the highest quality lumber for your gazebo. We mill every piece in-house to reduce splinters and rough edges for a smooth finish and better feel.

### Beauty

#### 24" Western Red Cedar Shingles

The optional red cedar shingles are made with high quality cedar, offering a traditional look.

### Longevity

#### Stainless Steel Screws

Stainless steel screws help to maintain the long life of your gazebo and offer a finished appearance.

### Solidity

#### 2" x 6" Braces

These braces offer additional strength and control side motion.

### Durability

#### Double 2" x 6" Floor Joists

...help prevent warping of joists and popping of floor boards. They also allow for a better straight down fastening of the floor board, giving your deck a stronger, longer-lasting life.

### Stability

#### Extra Strong 2" x 6" Decking

2x6 decking means strong construction, plus our hot-dipped galvanized screw nails are designed to stay seated for a lifetime.
